Kumamoto, November 1st, 2013

MAIN CONTENTS:

- Brief introduction of Hai Duong city
- Challenges and solutions
- Plan for the future

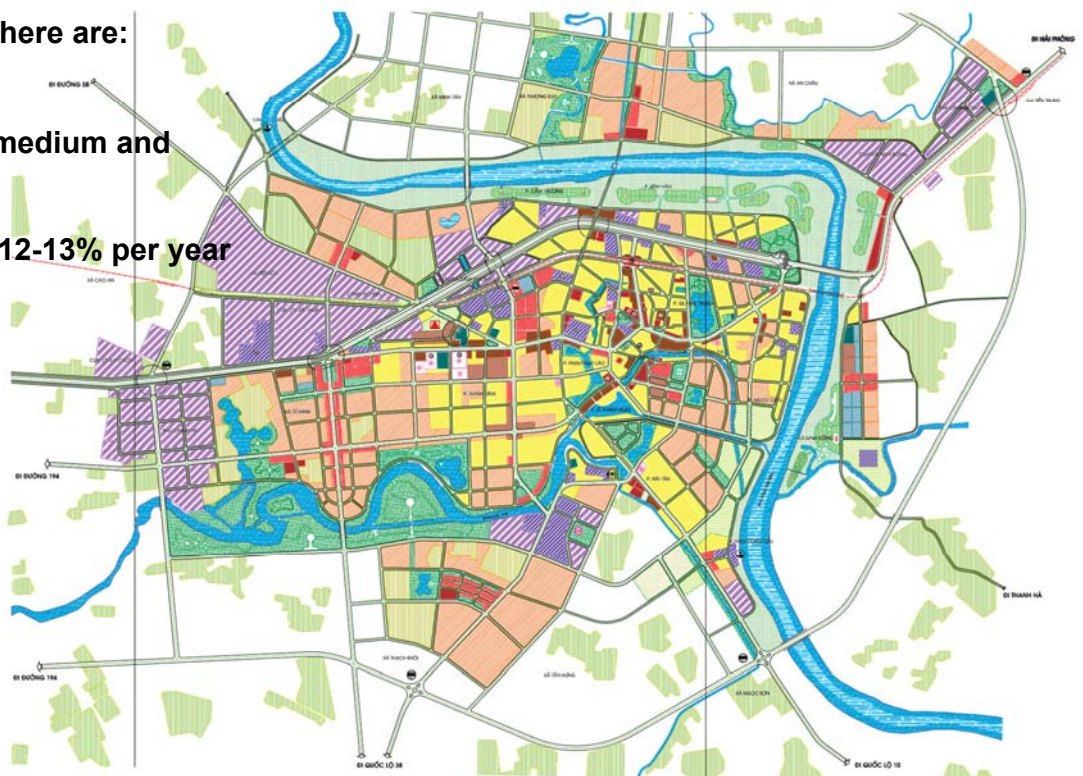

HAI DUONG CITY

- Hai Duong city is a Level 2 city of Vietnam (after Level 1 cities like: Hanoi capital, Ho Chi Minh city and Da Nang city)
- Total area: 71.386 km²
- Population: 253,893
- Administrative organization: 21 wards and communes
- Location: 57km from Hanoi capital to the East, 47km from Hai Phong city and 80km from Ha Long bay to the West.

HAI DUONG CITY

- In Hai Duong city, there are:
- 03 Industrial Zones
- 05 Industrial Parks
- 1,700 enterprises (medium and small sized)
- 06 urban areas
- Economic growth: 12-13% per year

CHALLENGES AND SOLUTIONS

- However, the city is facing environmental problems: water pollution, air pollution, environment pollution
- Reasons: citizen awareness, limited budget for environment conservation... ..

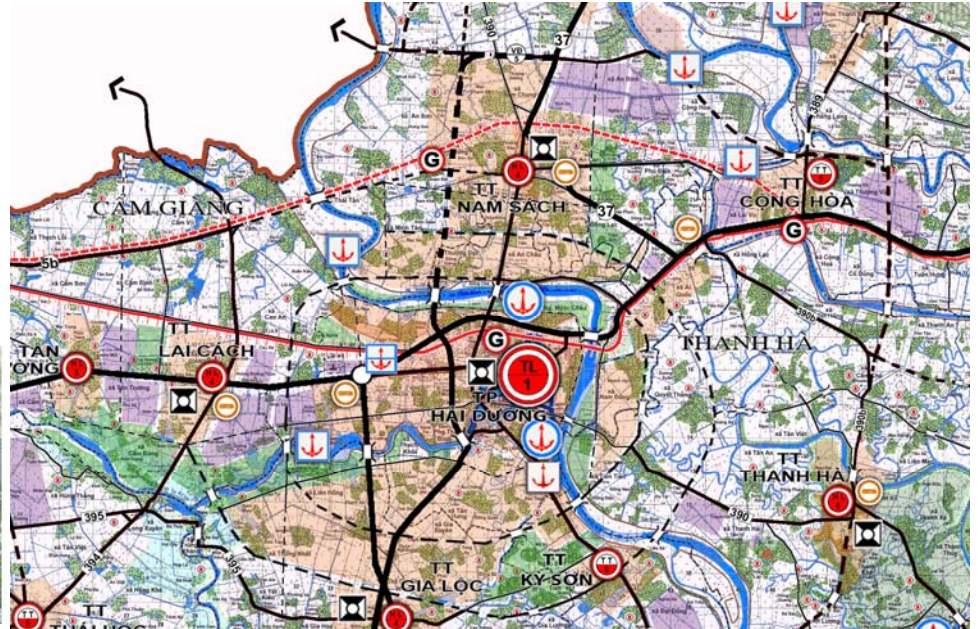

CHALLENGES AND SOLUTIONS

- In the coming time, Hai Duong city will find out and apply suitable solutions to overcome the challenges:
- Gain budget from ODA capital
- Invest in building a sewage treatment system with German technologies.

CHALLENGES AND SOLUTIONS

- Public transportation has been well planned and friendly
- Residential areas, services, schools, hospitals and trade centers are located on main roads

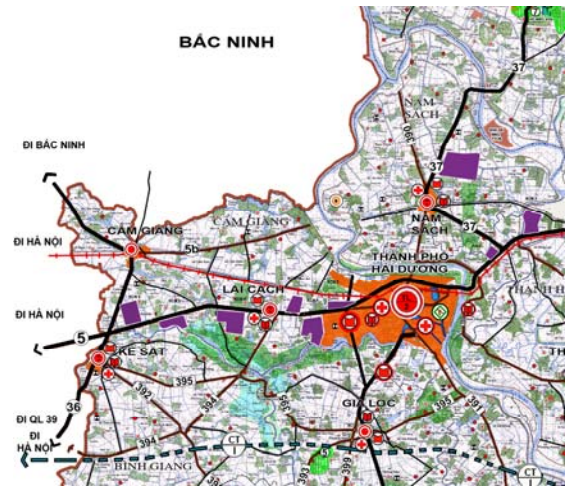

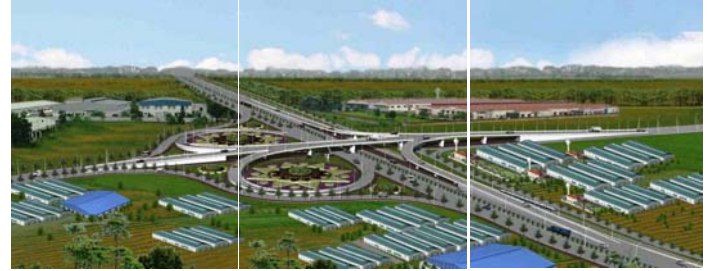

CHALLENGES AND SOLUTIONS

- Traditional culture is pursued, civilized culture is promoted
- 100% poor people are habited

PLAN FOR THE FUTURE

- Hai Duong city is trying hard to become a livable city.
- Hai Duong city will be upgraded to a Level 1 city before 2020.
- Boost economic growth, trade and services.
- Develop a city with unique characteristics
- Pure environment, convenient traffic system, available services...
- Become a peaceful, clean and friendly city.
