Future needs

1400 hectares of land
300,000 new jobs

Planning for the future

A row of flags from various countries, including Australia, Canada, and the United States, flying in front of a large, ornate building. The flags are mounted on tall poles and are arranged in a line, creating a sense of depth. The building behind them has a classical architectural style with many windows and decorative elements. The scene is brightly lit, suggesting a sunny day.
