Emergency Search and Rescue Operations

When parts of Bangkok became flooded, the BFRD intensified its mission to deal with the graver conditions, both as the lead and support operator. The rescue effort focused on emergencies like sandbag wall breaches that suddenly inundated nearby communities. The BFRD dispatched rescue teams to repair these fortifications and immediately evacuate community members, especially children, sick, and elderly people.

Strategy 3

Strategy on readiness preparation of the people for their quality aging

Website "Old is Young in BKK"

prepare the children
and working- age population
to the elderly

Strategy 4

Strategy on management of developing
elderly integration of Bangkok
Metropolitan Administration and
developing personnel for the elderly

Strategy 4 : Strategy on management of developing elderly integration of BMA and developing personnel for the elderly

Strategy 5

Strategy on processing, developing and disseminating knowledge on the elderly and the monitoring of implementation of the Elderly Bangkok plan
